IN THE SPECIFICATION:

Please replace the first full paragraph on Page 3 beginning at line 3 with the following paragraph:

1   The ~~group profile~~profile group managing server determines which group a

2 given computer belongs in by extracting the data of interest from the profile data received

3 from the computer, and consulting the group mapping database table. If the extracted data

4 matches any of the profile value-to-match entries in the table records, the ~~group managing~~

5 server includes the computer in the group listed in the first record found to contain an exact

6 match. If no matching record is found, the system includes the computer in the topmost

7 group.
